

GAME NAME	SUPPLIES	GROUPS	INSTRUCTIONS
Math Wizards	Set of numbers for each team	even teams	same as speed spellers only use numbers and math
Beach Ball Math	beach ball labeled with numbers for each group	groups of 5-25	have the players stand in a circle. The leader says a players name and throws the ball to them. The player who catches the ball says the numbers closest to each hand in a math sentence of the leaders choice. Example $5 \times 3 =$ or $5 + 3 =$. all players then say the answer together. the player with the ball then says another player's name and throws it to them.
Speed Spellers	set of all the letters of the alphabet for each team	even teams	call out a word and each team races to see who can spell the word the fastest. When they have the word completely laid out and spelled correctly they yell "Speed spellers" if the word is correct, they win. If not the game continues until a group has correctly spelled the word and called out "Speed spellers. play for points to a certain amount. give out prizes.
Elimination	deck of cards	2 players	with the deck of cards flip over the first 9 cards, placing them in 3 rows of 3 cards. Next flip over the top card, this is your target card. The object is for the person to see how many cards they can eliminate from the 9 cards using math. Those 9 cards can be used in any combination to try and equal the target card. Each number on the card beginning a part of a math problem. Player can use as few as 2 cards or as many as all 9 to try and eliminate.
Egg sound match	plastic eggs in a variety of colors	groups of 2-6	place small items inside the eggs and secure the opening with a hot glue gun. Make sure there are tow of each kind. Have the participants shake the eggs and listen to the sounds you hear. See if they can pair the eggs that are the same sounds.
Potato Puzzle	blind folds & a Mr.. potato head per group	groups of 2-6	have the participants put a blindfold on prior to handing out any materials. Once groups are blindfolded hand each group a bag that has the Mr. potato head contents in them. Explain to the group that they have to use all there senses except their site to try and put the object in front of them together. give them a time frame to complete and then let them remove their blindfold to see there creation.
